

List of action items committed to since last meetup:

1. Work on UI/UX and finalize it.
2. Design Flask app skeleton and setup Astra db.
3. Find the feasible LLM and try implementing RAG.

List of action items completed as we discussed.

1. Finalized UI/UX.
2. Designed Flask app and Astra db is configured.
3. Finalized LLM that is GPT 4 preview and working on RAG implementation.
